Star Awards

From early years to secondary and beyond, the key challenge for all educators is to spark and nurture a love for learning for life. The annual Star Awards are a wonderful celebration and recognition of the dedication and achievements of our staff, from secondary and primary schools across the Nottinghamshire and Lincolnshire areas.

Our judges will be looking for outstanding examples of best practice from the academic year 2016/17, covering a breadth of roles in teaching and learning, operational, administrative and professional support areas. The winners will be announced at an awards ceremony at the **Kelham Hall & Country Park, on Thursday 19 October 2017.**

Why sponsor the awards?

This event is an ideal opportunity for your organisation to get involved and to show your appreciation for those who educate and support the young people who live in our local communities. You will be helping us highlight the fantastic work they do day-in, day-out, and in doing so, you will be provided with the opportunity to promote your company and to build your brand credibility.

Diverse Academies Learning Partnership

The Diverse Academies Learning Partnership is a group of academies committed to development and improvement through collaboration and partnership. Formed in September 2011, the Diverse Academies consists of two trusts linked by a formal partnership agreement, the Diverse Academies Trust (DAT), a multi academy trust, and the National Church of England Academy Trust (NCEAT) which is a single academy trust.

Our core focus is the achievement and development of each individual student. We believe that this is best achieved through maintaining and developing each academy's unique identity and individual characteristics. However, the sharing of existing good practice and the co-development of new best practice is fundamental to the success of the academies. We have established a framework of core principles and practice to which all our academies subscribe. We encourage diversity and recognise that high levels of success cannot be sustained by adopting a 'one size fits all' model.
